TTI Software and Design Capabilities

CAPABILITY and SOFTWARE

Tooling Technologies Inc. has extensive design and fabrication experience supporting our customers and offers our design services as an extension to your Engineering organization when your backlog exceeds your in-house assets.

Our on-site staff are trained in the following design engineering software applications:

- Pro Engineer
- UniGraphics
- Inventor
- Mechanical Desktop
- Microsoft Project
- AutoCad
- Solidworks
- PC-DMIS
- Draftsman Plus

MEDIA

TTI offers these convenient media formats to assist you with your project communication:

- E-mail
- Ftp site
- 3.5 floppy disk
- 30 GB ADR cartridge
- 100 MB zip
- 4mm DAT Tape (DOS & Unix)
- CD-ROM (read/write)
- Color plotters, 36" & 54"
- Scanners up to 50" width
- AIT-1 & AIT-2 8mm Tapes
